WHO IS HARLAN OEM?

In today's competitive market for off road mobile equipment, continuous cost reduction efforts are necessary for survival and growth. Material usually accounts for **over 70% of product cost** and, thus, represents a major target for cost savings.

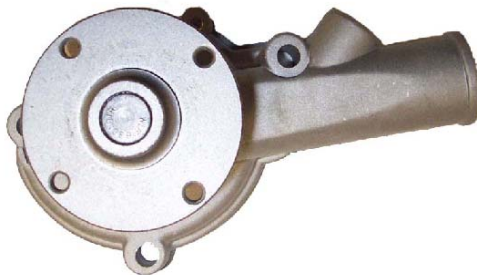

ALL APPLICATIONS

- THESE ARE NOT RE-MANUFACTURED
- NO CORE-CHARGES APPLY

HARLAN OEM can make a vital contribution to your efforts to reduce cost on existing component designs. Further, we can partner in your DFM (design for manufacturability) efforts. Finally, by offering a broad range of commodities, we can support your supplier base reduction efforts, thus reducing your transaction costs.

REPAIR PARTS AVAILABILITY!

- CUSTOM KITTING
- INDIVIDUAL COMPONENTS
- GASKETS CAN BE INCLUDED

Contact a Harlan OEM account representative to find out how we can help meet your cost reduction needs...
